Senior Quest Provides Guidance and Care as Aging Adults Face Transitions
Full-Service Home Care Agency now in Oradell

Oradell, NJ June 8, 2016 – Senior Quest, a full-service licensed home care agency, serving northern New Jersey, has recently moved to Oradell, NJ. The company began providing geriatric care management in 2011 and has since expanded to include a full range of home care services to seniors living at home and in institutional settings.

Silva Avedis, founder of Senior Quest, is a certified geriatric social worker whose diverse background spans over 30 years and includes hospital-based discharge planning, private case management, inpatient and outpatient rehabilitation programming, as well as admissions coordination and social work services in a geriatric care facility. “My experience in different settings and my personal conviction that every stage of life is precious, guides me in my work every day,” Ms. Avedis explains.

Long before Senior Quest was conceived, Avedis was making home visits to elderly clients and their families in an effort to help them find a way to manage their needs and keep them in a safe environment. “As people age they often face a need for assistance and have to rely on others in a way that they never had to before. It is natural to resist that,” Avedis explains. “Often it helps everyone concerned, seniors and their loved ones alike, to get a professional’s opinion on how best to navigate the situation they are facing.” With the founding of Senior Quest and the expansion of its services, clients receive this personalized assessment followed by the professional care needed to maintain their independence for as long as possible.

Senior Quest takes the guesswork out of where to go to find the recommended help once this assessment is complete. The company has taken great care to build connections with certified home health aides that are both competent and compassionate. An involved nursing staff provides quality assurance on every level by routinely assessing, evaluating and overseeing patient care, and a physician, who makes house calls, provides just what is needed to those who are homebound.

Located at 700 Kinderkamack Road in Suite 305, Senior Quest provides round-the-clock services every day of the year. Those in need of services are encouraged to call 201.523.9966 or visit www.seniorquestnj.com to learn more.

###

Senior Quest helps aging adults and their loved ones find solutions to the changes life brings by providing personalized geriatric care management services and employing certified home health aides to assist with activities of daily living. Whether it is a living situation that is no longer working; daily chores that have become overwhelming; legal and financial management that needs oversight; or assistance in understanding how to get qualified benefits from private health insurance policies and Medicare, Senior Quest is focused on finding solutions that are right for each individual and satisfying each client’s specific needs. www.seniorquestnj.com
